"While You Were Sleeping"

"While You Were Sleeping"

So far away.
From the place where I feel safe.
And I cant recall,
The beauty in your face.
The distance, between us, stores its dirty seeds.
Spreading inside of me, with every breath I breathe.

While you were sleepin'
I was wondering with the lonely people.
While you were sleepin'
Trying to fill the void you've left.
Life is short and the nights are long.
And tonight I moved on.
While you were sleepin'

A stranger for the night,
So I don't wake up alone (all alone)
To fake what we had, (to fake)
But it doesn't feel like home.
The distance between us,
Grows its dirty seeds.
Consuming my insides,
With every breath I breathe.

While you were sleepin'
I was wondering with the lonely people,
While you were sleepin' (while you were sleeping)
Trying to fill the void you've left.
Life is short and the nights are long,
And tonight, I moved on.
While you were sleepin',

Don't look for me, don't wait for me.
I found my path. (while you were sleeping)
Over sticks and stones, over broken bones.
I won't look back. (while you were sleeping)
There's a place for you,
Somewhere in my heart.
But that's the past,

While you were sleepin' (while you were sleeping)
I was wondering with the lonely people.
While you were sleepin', (while you were sleeping)
Trying to fill the void you've left.
(tonight) life is short and the nights are long, (tonight)
and tonight I moved on.
While you were sleepin'
