"Day By Day"

Visit "[Day By Day](#)" on MotoLyrics.com

Well day by day
And night by night
Wanna learn how to love you babe
Till I get it right
Yeah day by day and night by night

Come on and join the dance
It goes round and round
Until the things you've lost
Become the things you've found
Day by day and night by night

Now piece by piece
And bit by bit
I can see the target
I've got to try to hit
Piece by piece and bit by bit.

I tell you sweet singing sister
Gonna love you till I'm blistered and blue
Cos you're making what I'm shaking
Harder than the big bamboo
But although I'm digging singing babe
I really have to sing it with you

Sing it day by day
And night by night?
