Washing our socks in the dark
Burning the snow in the park
Didn't have much to say
But that's what we did today

Shaking our fist at the moon
Tried to catch stars in a spoon
Watching the children play
That's what we did today

That's what we did, etc.

Drinking up a bottle of wine
Messing around with time
Looking for something to say
That's what we did

Running around in the nude
Making the neighbours feel rude
Remembering how to play
That's what we did today

Holding our baby tight
Making it through the night
Trying to find our way
That's what we did etc.

Wishing upon a star!
How far away is far?
Don't understand what you say
That's what we did. etc.
