"A Place Like This"

Let's Go!

[Intro]

Welcome to paradise, I know you wanna place like this
You wanna place (uh huh), C'mon (yeah)
Grits and CeCe (Let's Go!)
We wanna place like this (uh huh)
Do you wanna go?

[Verse 1]

I had to get away, find some time to pray
And assess my life, as good as it can be
It's sadly incomplete with all this pain inside
Now it's so beautiful here any time of year (any time of
the year)
All the waterfalls, and the streets of gold
And those angels I hear singing
I wanna

[Chorus]

I wanna place like this, that I can call my own (call my
own)
I wanna place like this, where I will never be alone
I wanna place like this, where I can finally be free
(finally be free)
I wanna place like this, made especially for me

Heaven is where I be, yeah

It's paradise, I know I wanna place like this
Where all your dreams come true
Do you wanna go?

[Verse 2]

There way upon a hill, that's where joy lives, with
happiness and
Down milk and honey way lives a brighter day
Next to love overflowing
A picture perfect scene, so calm and sweet
Where paradise begins, life will never end

And those angels I hear singing

[Chorus 2]

I wanna place like this, that I can call my own
I wanna place like this, where I will never be alone
I wanna place like this, where I can finally be free
I wanna place like this, yeah this is where I wanna be

[Chorus]

I wanna place like this, that I can call my own
I wanna place like this, where I will never be alone
I wanna place like this, where I can finally be free
I wanna place like this, made especially for me

I wanna place like this for you and me where we can be
free
I can't wait to dance through the waterfalls
And skate through the streets of gold (oh yeah)
I wanna place like this for you and me where we can be
free
Can't wait to sing, laugh and play here the bells ring
(Let's go) free

[Rap]

Hope your open to focusin' on the afterlife
I am, don't have to ask me twice
Gettin' in, though I paid an after price
Stayed till my way was made
Learned the facts fo life
Play it cool in here, never be alone (place)
You can call a home, spot that's all your own
Be free, Grits and CeCe on point again
It's a bliss my friend in a place like this again

It's where I wanna be, I wanna be (yeah)
It's where I wanna be, I wanna be

I wanna place for you and me (yeah), La la la la la (ooh)

Free, free, free,
Oh, get my sing on

I wanna place like this for you and me where we can be
free

(Free free, free free, free free) Free, Free, free
Yeah

I wanna place like this (I wanna)

I wanna place like this, (call my own, I wanna) that I can

call my own
I wanna place like this, (I'll never be alone) where I will
never be alone
(I wanna place like this) I wanna place like this (I can
finally be free, yeah yeah yeah) where I can finally be
free
I wanna place like this

I wanna place like this, oo

I wanna place like this, (I wanna place like this) that I
can call my own (I can call my own)
I wanna place like this, (I'll never be alone) where I will
never be alone
(I wanna place like this, I wanna place like this) I wanna
place like this, where I can finally be free (I can
I wanna a place like this, yeah this is where I wanna
(HEAVEN!!)

I wanna place like this, that I can call my own
I wanna a place like this, where I will never be alone (I
wanna place like this, I wanna place like this)
I wanna place like this, where I can finally be free (I can
finally be free)
I wanna place like this, yeah this is where I wanna be
