The wind it blows
this time of year
Chills my soul
and all my tears
and I don't know
how we got here
my friend
wars may end
but memories kill
they say they won't
but they always will
and one more time
straight up that hill
again
how deep the water runs
how close the devil crawls
fathers and sons
oh lord
forgive us all
the lines you cross
the lines you can't
the quiet rage
and a dark intent
have all the days
that we have spent
been in vain
how deep the water runs
how close the devil crawls
fire up your guns
oh lord
forgive us all
instrumental break
how deep the water runs
how close the devil crawls
look what we've done
forgive us all
forgive us all
forgive us all
