

Kevin Costner & Modern West "Long Hot Night"

Visit "[Long Hot Night](#)" on MotoLyrics.com

There's a freight train roaring through the dead of
night

Heading straight for Yuma

I hear it every time it rolls through this town

It's one a.m. and I'm wide awake

Too hot for sleeping

Those wheels keep spinning 'round and 'round

Wheels keep spinning 'round and 'round

Me and that train covered lot of ground

I wish I may, I wish I might

It's gonna be another long hot night

Trucks are flying up and down I-10

I can hear them in the distance

Tired drivers trying to beat the heat

We used to drive with the headlights out

Moonlight on the highway

You were sleeping with your head in my lap

You were sleeping with your head in my lap

Life don't get much better than that

Hubcaps spinning in the light

It's gonna be another long hot night

How'd I let it get so wrong?

The days roll by but the nights drag on

Trying to find a way to get on track

But I'm spinning wheels, looking back

I'm just spinning wheels, looking back

Shots ring out in the middle of a dream

Car tires squealing

For a moment I wonder where I am

I'm right here in this little hot house

With no one beside me

I'm listening to the wobble of the ceiling fan

I'm listening to the wobble of the ceiling fan

I wish I were a better man
Gonna keep trying till I get it right
It's gonna be another long hot night

Long hot night, long hot night, long hot night
