# "Blame It On The Night"

At night I see a great big tree

An icy waterfall on me

Oh I blame it on the night

Yes I blame it on the night

Well I blame it on the night

The Virgin Mary by my bed

Eyes full of tears, patting my head

Oh I blame it on the night

Yes I blame it on the night

Oh I blame it on the night

A laughing face at every pane

The sight, the sight of a bloody rain

Oh I blame it on the night (x3)

Those yellow gates - the big white walls

Look at the snow - just how it falls

Oh I blame it on the night

Oh I just blame it on the night

Oh I blame it on the night

Blame it on the night oh oh

Blame it on the night

The night is not right
Why don't you blame it on the night?

So if you think you thought you knew

Look at me - I don't know what to do

I only blame it on the night (x3)

So I think I'm rich and I think I'm poor

I see that crystal emerald door

And I blame it on the night

It's just a dream

Yes I blame it on the night

Oh I blame it on the night

Fetch me something that is real

A big teddy bear that I can feel

Oh I blame it on the night

Where's my mummy? I blame it on the night

We all blame it on the night

We all blame the night

We all blame the night

The night is right, there is no light

You can blame it - blame it on the night

Blame it on the night
