Fetch me my woman, hey
I just want her near me now
Don't want any, any, anybody else
I just want her near me now

Fetch me my woman
Want her right by my side, yes, I do, yes, I do
Got that long black hair, oh yeah
Keep a good fat boy satisfied

Fetch me my good girl
I know she understands, know she understands
Fetch me my good girl
She's mine, she shows me
She shows me the promised land

Fetch me my good girl
She's all I need to keep me satisfied
She got the long black hair, alright
Never try to take me for a ride, oh no

Fetch me my woman
So hot and smooth
Oh, she don't give anything
Anything but love

Oh, fetch me my woman, oh, she's all I need
All I need, all I need, all I need
She left me today
Oh, she has caused my heart to bleed
Oh, fetch me my woman, oh yes, oh yes, oh yes

I don't think she want me

I'm down in the mire, babe
Since you not been around
Everybody's talking crazy at me
I think I'd better be homeward bound

She might be home today, tomorrow
She might be home today, tomorrow
She might be home today

Fetch me my woman
I know she wants me to have my way
Wants me to have my way, oh yeah, oh yeah

Fetch me my woman
Here she comes
Here she comes

She went up north
Just for a few days
Just for a few days
But she never returned

I know she has her secret ways of teasing me
But I'd rather be dead
If she's gonna tease me anymore, anymore
She got that long, long black hair
I just can't stand the pain anymore, anymore, oh yes

Fetch me my woman
Oh, fetch me my woman
Fetch me my woman
Fetch me my woman, all you men

I know she may be teasing me
Long black hair, not pleasing me
Fetch me my woman, baby, oh
Fetch me my woman
Oh, oh, oh, fetch me my woman right now
