(Kevin Denney/Don Sampson)

Check engine light came on in my pick up truck
So I took a piece of black tape and I covered it up
I knew there was a problem underneath the hood
But I just kept on drivin' a little faster then I should
I told myself that it would be okay
Ignore it and it'll go away

And as to be expected a few miles down the road
My really nothin's wrong here went up in smoke
Kinda like the mornin' you said, "we need to talk"
I pretended I was listenin' but I was blowin' it off
I didn't hear a thing you had to say
Ignore it and it'll go away

The problem wasn't that there was a problem
The problem was the choice that I made
Why did I choose not to notice
What was right there in my face?

I'd like to say I'm sorry, but it's a little to late for that
You've gone on with your life...I'm glad I really am
I don't know why it took me so long to realize
I don't what else to say except that I've
Learned my lesson one true love too late
Ignore it and it'll go away

Ignore it and it will go away
