It's in his head, it's in his head
It's in his head, it's in his head
It's in his head, it's in his head
It's in his head, it's in his head

Fetch the doctor
Doctor will sort him out
Fetch the doctor
The doctor will sort him out
Shout

Mad boy, mad boy
Mad boy, mad boy
Can't make it any more

It's in his brain, it's in his brain
It's in his brain, it's in his brain
It's in his brain, it's in his brain
It's in his brain, it's in his brain

Fetch the doctor
The doctor'll bring the van
Fetch the doctor now
The doctor is your man

Mad boy, mad boy
Mad boy, mad boy
Can't make it any more

It's in his head, it's in his head
It's in his head, it's in his head
It's in his head, it's in his head
It's in his head, it's in his head

Fetch the doctor
The doctor's on the scene
Fetch the d-d-d-doctor
He will make it easy, nice and clean

Mad boy, mad boy
Mad boy, mad boy
Can't make it any more

It's in his brain, it's in his brain
It's in his brain, it's in his brain
It's in his brain, it's in his brain
It's in his brain, it's in his brain

Fetch the doctor
The doctor's gone away
Fetch a doctor
See you again another day, boy, mad

Mad boy, mad boy
Mad boy, mad boy
Can't hope anymore
Anymore, anymore, anymore

He's in the van, he's in the van
He's in the van, he's with the man
He's in the van, he's in the van
He's in the van, he's with the man

Fetch the doctor
The doctor's done his job
Put him out to grass in the park
Put him out, no more trouble
No more difficulties with his mother
Nothing more to say but

Mad boy, mad boy
Mad boy, mad boy
He can't make it anymore
Anymore, anymore, anymore

Anymore, anymore, anymore
Anymore, anymore, anymore
Anymore, anymore, anymore
Anymore, anymore, anymore
Anymore, anymore, anymore

No, no, no
