Tired of leaving
Temporary breathing
Backed out on the cause
You backed out on the cause

They won't love you
Make sure they fuck you
You backed out on the cause
You backed out on the cause

You think it's the season
Temporary treason
You backed out on the cause
You backed out on the cause

They wanna hug you
Make sure they loved you
You backed out on the cause
You backed out on the cause

Everyone can write this song
But they can't write you and me
Oh, everyone can write this song
But they can't write you and me

They're the lives that will make you
They're traces with you
Backed out on the cause
You backed out on the cause

That time is a fever
She was stealing
Backed out on the cause
You backed out on the cause

Backed out on the cause
Can write this song
But they can't write you and me
Oh, everyone can write this song
They can't write you and me
