"Broke Me Up"

Visit "[Broke Me Up](#)" on MotoLyrics.com

We got hours and hours of fights I've seen them in our
hearts before we sleep
Textured like a moment of cries I'll only be in parks if
you were weak
Cuz everybody broke me up, everybody broke me up
Everybody broke me up, everybody broke me up

This is how they used to live before they got the cards
to help them sing
Child-like a moment stance I've seen a pack of wolf
turn to rings
And all we have is what you though
Before you left and I got this song, so take me through
the makeshift lies
I don't know if you ever will
Cuz everybody broke me up everybody broke me up
Everybody broke me up everybody broke me up

And I can't dance cause I don't know the time
And I can't chance cause I already had mine
Everybody broke me up everybody broke me up
Everybody broke me up everybody broke me up

Let's dance put away the crack head kids and try to live
in no man's time
They will do the sidewalk things cause they dreamt to
you in sleep
And sleep is all we have
And sleep is all we have
