Kevin Fowler - If These Old Walls Could Talk

(chorus)

If these old walls could talk
I'd be a sad man
She'd left me long ago
If she knew the things I did back then
No, they ain't said a word
Stood silent through it all
I'd be a lonely man
If these old walls could talk

This old house of ours
It's made of stone but it's built on sand
And these four walls they are my best friends
They're keepin' all my past locked deep inside
No one will ever know
All those things I did so long ago
I keep runnin' tryin' to hide from yesterday

But there's just no need
I know my secret's safe
(repeat chorus)

They've stood the test of time
Never let me down
I've put it all behind me
They remind me
I'm on shaky ground
They won't let me forget

(repeat chorus)

Yea, I'd be a lonely man
If these old walls could talk
I'd be a sad man
She'd left me long ago
If she only knew all those things I did back then
