Some say my dreams were shattered
I don't believe that it could make me feel sore
That stopped me from whatin' more

You showed me the way
You took the lead (took the lead)
What could this be an angel beside me
You showed me everythin' I want to see

And now I can't keep myself believin'
I shoudn't stop from dreamin'
I'll keep from reachin' out
I'll dream that's right for me
A dream that you and me
Together be as one
Oh in a dream

So here fantasies are all real
It make me wanna feel
All of the odds I'll fate it with you

You showed me the way
I'll thank god for this day we met
I always keep you in side my heart

And now I see you are beside me
How could this be I'll keep on asking why
Oh...

In a dream anything could happen
In a dream you anythin'
In a dream we can be one
Oh can we can be one...
