A star is calling me, me esta llamando
A star is calling me, me esta llamando
A star is calling me, me esta llamando
And it is telling me me estas mintiendo
A star is calling me, me esta llamando
And it is asking me qu estas haciendo?
And I am answering, toy respondiend
That Im just hiding, me estoy escondiendo
That Im just hiding por un tiempo...
He was born en cuna de plata
She was born en cuna e madera
He was born in cuna de lata
She came out from un bar cualquiera
He was born in a dirty zanja
She came out de la misma tierra
Silver spoon, cuchara de plata
Wooden spoon, cuchara e madera
But we talk to the same estrella
And it shouts Hey, la vida es bella!
Silver spoon, cuchara de plata
Wooden spoon, cuchara e madera
When we travel el mundo entero,
A contramano y haciendo dedo
Then we look into each others ojos
And we find were en un enredo
Nooooo, no te voy a mirar
Porque vas a decir lo que pensas
Ay, estrella star, why can't you lie
Como los demas?
A star is calling me, me esta llamando...
