I don't want be lonely

baby I don't want to miss something
I don't miss any smile
I don't want to fall asleep
before open your eyes
I give you my life for moment (moment)
of your love
I feel your heart song to me
I feel heart beat going long ago

Chorus: I don't want be lonely
cause something miss you can't give me
no, I don't want be lonely
cause I wanna feel your heart (whoa)
x2

baby I don't want to miss something
I don't want miss any kiss
I don't want to lose myself
into blue of your eyes
I give you my life for moment (moment)
of your love
I feel your heart song to me
I feel heart beat going long ago

I give you my life for moment (moment)
of your love
I feel your heart close to me
I feel heart beat going long ago
