It's a been long time since I saw you
And I'm going outta my mind
Don't think I can live another minute
Without you by my side
How [Incomprehensible] makes me weak
And tears come to my eyes

I need you now, I need you here
I need your love to surround me
And chase away my fears
I want it now, I want it here
'Cause if I'm to live without ya
I'll be living in tears

So if you feel the way I feel
Just holla if you wanna chill
I gotchya, tell me what you need
If you want me

If you feel the way I feel
Just holla if you wanna chill
I gotchya, tell me what you need
If you want me like I want you

'Cause your touch, I need so much
Your kiss, I need so much
Your hugs, I need so much
If you want me

Your kiss, I need so much
Your touch, I need so much
Your hugs, I need so much
If you want me like I want you

It's a been long time, I've been suffering
And I just can't take no more
You've opened up the door to my heart
Now I'm back for more
You're my only remedy, my only cure

I need you now, I need you here
I need you love to surround me

And chase away my fears
I want it now, I want it here
If I'm to live without ya
I'll be living in tears

So if you feel the way I feel
Just holla if you wanna chill
I gotchya, tell me what you need
If you want me

If you feel the way I feel
Just holla if you wanna chill
I gotchya, tell me what you need
If you want me like I want you

'Cause your touch, I need so much
Your kiss, I need so much
Your hugs, I need so much
If you want me

Your kiss, I need so much
Your touch, I need so much
Your hugs, I need so much
I dunno what I'd do without you

If you feel the way I feel
Just holla if you wanna chill
I gotchya, tell me what you need
If you want me

If you feel the way I feel
Just holla if you wanna chill
I gotchya, tell me what you need
If you want me like I want you

If you, like I want you
If you want me like I want you
If you
