Intoxicate me  
Intoxicating you  
Resuscitate me  
I'm breathless because of you  
Illuminate me  
Enveloped and so divine  
And devastate me, your devastating,  
the fall, it's all and everything

Caught up strung out and oh so high  
Caught up strung out and oh so high  
The fall, it's all and everything

Medicate me,  
I feel blue.  
And suffocate me,  
Its my, my need from you  
Accelerate me,  
Aroused, with such a vise.  
So devastate me, so devastating  
The fall, it's all and everything

Caught up strung out and oh so high  
Caught up strung out and oh so high  
Caught up strung out and oh so high  
The fall, it comes with everything your sweet kisses  
hold.  
The fall, it comes with everything your sweet kisses,  
Your sweet kisses hold.

How sweet, this kiss, the fall

Caught up strung out and oh so high  
Caught up strung out and oh so high  
Caught up strung out and oh so high  
It's all and everything  
It's all and everything  
Caught up strung out and oh so high  
It's all and everything
