I met your sister, I met your friends.
I met your father and all your Momma's men.
I've seen some victims, they're not all guy.
It seems so hard for us to comprehend.

This disease. This disease.

When I got the word that you had A.I.D.S.
It hit me so hard and words I could not say.
I felt compassion but no response I could ever give.
Would ever ease the pain that you were going through
with..

This disease. This disease.
This disease... This disease... This disease... This disease...

Take a walk with me, I'll show you where you wanna
be.
I'll show you all the things in life that you may never
get to see.
For there are people in this society that would banish
you away.
But not I. No not I.

Woooo oooo. Wooo ooo ooo. Woooo oooo. Wooo ooo
ooo.

Micheal died. He was 24.
He always used to laugh at the health reports.
He is dead now. A.I.D.S. is not.
Spread the word. It has to be stopped.

This disease. This disease.

We finally noticed. We've took some steps.
To try eliminate this never ending threat.
It is an illness we have to treat.
Let's pull together and find a remedy to...

This disease. This disease.
This disease... This disease... This disease...

This disease. This disease.

This diseaseÂ...Â...Â.... This diseaseÂ...Â...Â...
