And now, the night time...

[Cee-Lo]

Late in the evening

There is the thieving and the trickin and the trappin

And they ain't actin

We make it happen

We'll get the guns on anyones and get to clappin'

Even for rappin'

Does it surprise ya?

We'll readjust and reconcile and recognize up

-that I'm a writer

Oh yes I write up

Now open wide and let me put the night inside ya

This is music usually confused with major motion
picture

No one is stricter about it being status for scripture

No put on your gut is goin', you're wearin' what don't fit
ya

You better run little one, cause the rhythm's gonna
getcha

And when it hits ya, it usually hits somebody with ya

Make 'em risk a total eclipse of sun to get richer

Baby, a little time and something fine that'll fix ya

With shield love you forgot to remember to miss the -
(??)

The nightlife ?the dark side of the city

Gon' be on 24 inches, and be defenseless

The nightlife ?the dark side of my heart

Where no one really knows you, and no one supposed
you

The nightlife ?the dark side of my soul

Where if somebody crossed you, kill 'em up off you

The nightlife ?the dark side of the moon

Where the sun is scared to come

(give me some) ha!

(chorus)

Take me where the darkness is still beautiful

OOOohhh...wanna go, wanna go, wanna go, wanna
know, wanna go, wanna go

Wanna go, wanna go, wanna go, wanna know, wanna
go, wanna go

Give me the night!
The night is gonna getcha
Ahh it's gonna getcha
The night is gonna getcha
Ahhh it's gonna getcha
Give me the night!
The night is gonna getcha
Ahh it's gonna getcha
The night is gonna getcha
Ahhh it's gonna getcha
Give me the night!
The night is gonna getcha
Ahhh it's gonna getcha
The night is gonna getcha
Hey it's gonna getcha
Give me the night!
The night is gonna getcha
Ahhh it's gonna getcha
[Chazzie]
I'll be your lady
Farewell the friend
I'll be honest
And I'll pretend
I'll act like I love ya all!!
I'll act like I love ya all!
(give me some now)
Take me where the darkness is still beautiful
[Cee-Lo]
I've been runnin' since rock box
I've cocked locks and locked blocks and rocked rocks
And dropped tops
The obviously odd, five foot six inch guard
In the flesh
I've been the best
I'll get in your chest and in the mess
In your vest and out your back without even getting out
the 'llac
I lied about how I really handled that situation about the
AK
I'll hit back
If your lead was the only collateral you got I'll get back
Now get flat
Say a prayer cause shorty want this shit back
Sit back, this chit-chat is pitch black
But you can still see what I'm sayin'
And heavy is how I weigh in
Niggaz love singin' sad songs about how bad they want
to stay in
Either hold out on basketball playin or make use of
some yay' then
Whoowhoo

Lord shooo feel good to me
I promise, I promise
Not to ever, ever leave this night life alone
This me
Me too (yup)
This me
And me three
(chorus)
