Soldier's Last Breath  
(Kevin Skinner)

I  
They've been fighting that war too long  
Won't you send them boys back home  
They've been away  
From the ones they love too long

II  
I wonder if they know how that feels  
Up on capitol hill , to hear your best friend say  
Man, I'm scared to death  
Just another day as a Soldier draws his last breath

III  
Thru the eyes of the wound did you see  
  
on the front lines for you and me  
They pay a cost with everyday there's someone lost

IV  
Wear and tear don't show  
Cause every good Soldier knows  
There's no room, no room for second best  
Just another day as a Soldier draws his last breath

Repeat II 2x

Thru the eyes of the wound did you see  
On the front lines for you and me
