Standing alone all by myself
I don't know if I'll find anyone else
Anyone else

Walking down this lonesome avenue
I got to find something old or new
Can you tell me what I'm here for?
Do I mean anything anymore?

Where will I find you at 12 at night?
Will you be around to tell me everything's all right?

Tonight I found out something new
I'm going to stay home and spend some time with you
You won't be alone
Waiting by the phone

Where will I find you at 12 at night?
Will you be around to tell me everything's all right?

You won't be alone
Waiting by the phone

Where will I find you at 12 at night?
Will you be around to tell me everything's all right?
Where will I find you at 12 at night?
Will you be around to tell me everything's all right?

Everything's all right
Your with me tonight
