For a lifetime of service
In the name of love,
I wanna thank you (o-o-oooh)

I could say it a thousand times
And it wouldn't be enough,
I wanna thank you
For everything you do.

I wrote a song about you
What would we do without you
(oh) We won't forget (o-o-oooh)

And all our lives have been blessed
'Cause you're simply the best
And we thank you

I admire your thirst for fire
The one that always burns inside
With all you've been through you still continue
In the memory anekatips of those that fought and died

So we're thanking you
The energy come true
Alright, well
oooh have I got news for you,
Yeah, you are appreciated oh!

For a lifetime of service
In the name of love,
We wanna thank you (o-o-oooh)
I could say it a thousand times
And it wouldn't be enough,
We wanna thank you for everything you do.

I wrote a song about you
What would we do without you
We won't forget (o-o-oooh)
And all our lives have been blessed
Cause you're simply the best
And we thank you

Now please know that you're my hero
Each and every day through
When I see you I wanna be up
If only I was as brave as you
Now so I'm thanking you
For everything you do uh huh yes
Ooooh! I know this much is true
Dude, my mama was a firefighter

For a lifetime of service in the name of love,
We wanna thank you (o-o-oooh)
I could say it a thousand times
And it wouldn't be enough,
We wanna thank you for everything you do.

I wrote a song about you
What would we do without you
We won't forget (o-o-oooh)

And all our lives have been blessed
'Cause you're simply the best
And we thank you.

Bridge
Now ever since I was a little kid
This was a dream that I had
(So bad, so bad, so bad)
And every now and again
I wanna ride this fire engine so bad
So bad, so bad, so bad
Yes, I do

For a lifetime of service in the name of love,
We wanna thank you (o-o-oooh)
I could say it a thousand times
And it wouldn't be enough,
We wanna thank you for everything you do.

I wrote a song about you
What would we do without you
We won't forget (o-o-oooh)

And all our lives have been blessed
Cause you're simply the best
And we thank you
