I watch from a dazed view
While my lips inch closer to you
Right now there's nothing in the world I can do
To stop me from falling towards you

You watch with an expression of fright
As my face moves into the light
These fireworks burn out so bright
Untill I drown into the night

Can somebody tell me
Where did you go
Can somebody tell me
Cause I never thought
Never thought this could happen to me

You raise your eyes
Entranced, blue with little suprise
Right now, God, I despise
That this is my only compromise

Brown hair scatters on my face
My thoughts lost in endless disgrace
Someone get me out of inner space
Back to that heart that I laced

Can somebody tell me
Where did you go
Can somebody tell me
Cause I never thought
Never thought you could leave me

So I fell into the hands
Of my own decision to foreign lands
This air isn't right in my lungs
When it's exchanged through your tounge
Into the breathless

Into the breathless
More of this nothingness
This is all a perfect mess yet painted

So discreetly from the window

Can somebody tell me

Where did you go

Can somebody tell me

Cause I never

No I never

I never thought

That I would just happen to drown
