I hunger not but for victory and justice  
I shall feast when I am victorious  
And the feast shall be of the vanquished flesh  
Pain for them

I feel nothing for those that betray me  
Let them be filled with sorrow and suffering  
Let me administer their defeat  
Pain for them

[Chorus:]  
They tried to take away what I once loved  
Then tried to strip me of my life  
But revenge will come with deadly force  
Their corpses will be made into trophies

Anguished and tortured but I live on  
For those that are dismayed I have a gift  
I shall eat their souls  
Pain for them

[Chorus]
