Embraced by moonlight - Hallowed eve, I exhale
A Breach through the night - Scorched by daylight
Undercover conspiracies - Aerie chants, ghastly
recitated
Demons arose in cruelty nightmares - Flourished in a
forbeared haze
Exalted darkness - The origin of all wicked paths
Ghoulis masterpiece of mine - Descending from some
ways unknown
Remembrance decreased - A restless wraith within me
Behold statues who stain dark - Descending into dream
made abysses

Trespass the gate of night - Distant primordial yearning
- My ground, poisoned soil - A perfect vultures world
Without creed, not defeat - A fog in the cradle of life -
My past, divine denied - A chaos order to revealed

Carcasses tremble - Thousand diseases are my guide
A web of putrefaction - My glade through triviality
Above nightskies ways - Wings of desolation spreads
The last archangel rise - Lacerate midnights golden
veil
Pernicious Reinforcement - Scorned daylight shall fail
An unending regency arise - Midnights spawn I am
forevermore
Tragedies assamble - Revolve around me in circles
Abolish all earthbound rules - Reborn genesis denied

[Refrain 2:]

Worlds gates behind my back - Yells of delight
unheard - Dimensions plundered - Agony awaits my
coronation
Earthbound rules - World of fools - You'll see - The
face of eternity...

... While wearing the crown of horns
