"Confused In Love"

Visit "[Confused In Love](#)" on MotoLyrics.com

You know what?
I won't lie about it
You know me
Feelin like I couldn't go no more
But that's how I feel now for real
And never would I trust him
My heart wont let me do it, no
So many times I've been hurt before
My soul won't let love walk through the door
Cause nothing compares to when that someone won't
see
How strong these feelings are deep inside
They know there's noway that you can hide
Your love oh baby
And I just couldn't hide it if I try
Rather keep it deep inside
Than let me feelings show but now I know
I can't do you I can only do me
And God knows oh why
I used to be thru with love, confused in love
No way of knowing what I wanna do in love
But not no more, I won't stress no more
Used to cry at night
Lay awake at night
Hold my pillow tight
It'll be alright, baby girl

At first I couldn't see me
Fallin deep in love again
I'd rather give it all
Than let my heart get broke again, again
Used to fall to my knees
And ask Lord please tell me what do I do?
I know this love's untrue
I'm heart-broken need consolin
Won't trust nobody
But really knowin
This ain't the way to live
I've gotta get this thing together when I'm stronger
I could love again
And God knows oh why

(2x)

I used to be thru with love, confused in love
No way of knowing what I wanna do in love
But not no more, I won't stress no more
Used to cry at night
Lay awake at night
Hold my pillow tight
It'll be alright, baby girl

See I want you to listen
You ain't gotta worry about a thing no
You ain't gotta cry no more, no more late at night
If you waiting up
Don't wait no more
You wanna leave
Hey! yeah!

I used to be thru with love, confused in love
No way of knowing what I wanna do in love
But not no more, I won't stress no more
Used to cry at night
Lay awake at night
Hold my pillow tight
It'll be alright, baby girl
No, no, no more, no
You wont hurt me again, no,
Cause I aint gonna cry no more
No I aint gonna cry no more
