One more night, to show how I feel, one more night
All I need is one more night to show you how I feel, one
more night

My mama never told me that I would be an angel down
in this earth
To me you like the sun shining down on me and it
feels like heaven
I just need one night, I just need one night

One more night, to show how I feel, one more night
All I need is one more night to show you how I feel, one
more night

Iâ€™m sorry that I left you, crying all alone, sometimes
Iâ€™m just so stupid
My love is like water, I know that youâ€™re a flower, let
me pour it down on you
I just need one night, I just need one night

One more night, to show how I feel, one more night
All I need is one more night to show you how I feel, one
more night

I need you, gimme another chance baby
I want you, gimme another chance baby
I need you, gimme another chance baby
I want you, gimme another chance baby
I need one more

One more night, to show how I feel, one more night
All I need is one more night to show you how I feel, one
more night
