Just to think about it, I would do things that I would  
regret (tryna get you to)  
To understand how I felt for you  
I tried real hard time and time again  
but I didn't know  
my love wouldn't grow, I should've just let it go  
But I stayed around thinking you would learn to love

[Chorus:]

And we both knew, you're wrong  
There's nothing you can do, to ever undo what you've  
done to me  
I loved you, deep in my heart I know you couldn't love  
me  
But baby I just kept holding on, I should've let you go  
Should've let you go [x3]

Couldn't do without it, I felt I needed you in my world  
(to get me by, by)  
More and more I looked out for you, tried to play me  
like a fool so I  
Didn't care that love wasn't there, had to just let it go  
Couldn't stay around, thinking you would learn to love

[Chorus]

[Amina:]

And now I'm gone, plus I'd rather be alone  
We both grown, lower your tone over the phone, aaight  
I should've known, damn I should've known  
It wouldn't last long, when you didn't come home some  
nights  
And now I'm on, in the zone, handle business on my  
own  
So respect the queen on the throne, aaight  
Here's some strong advice, move on, that's life  
You're wrong, I'm right, and I'm glad I let you go

[Chorus]

Don't know why you would ever lie to me so,  
But I should've let you

Don't know why I could never let you go  
Could've, should've, let you  
Don't know why...
