It's better to love than to give into hate

Make me over, make me over, make me over
Make me over, make me over, make me over, make
me over
Make me over, make me over, make me over
Make me over, make me over, make me over

Make me over, make me nice
And when you done, oh I wanna look fly
Make me expensive, make me high price
And when you done, oh I wanna be right

Yeah, come on baby show me what you got
You say you can take me to the top
We're almost there so baby don't stop, don't stop
Totally make me over, yeah

Make me over, make me over
I wanna be made over so make me over
Make me over, make me over
I wanna be made over so make me over, make me over

I wanna see some places I ain't never seen before
I wanna see some faces I ain't never seen before
I'm bright as the stars so make me brighter, yeah
I'm already the shit baby, so make me better, yeah,
yeah

Come on baby, show me what you got

You say you can take me to the top
We're almost there so baby don't stop, don't stop
Totally make me over, yeah

Make me over, make me over
I wanna be made over so make me over
Make me over, make me over
I wanna be made over so make me over

Make me over, make me over, make me over
Make me over, make me over, make me over

Make me over, make me over, make me over
Make me over, make me over

Make me over, make me over, make me over
Make me over, make me over, make me over
Make me over, make me over, make me over
Make me over, make me over, make me over

Break it down
Doll me up hey, make me real pretty
Doll me up hey, make me look good
Yeah, yeah, yeah, yeah

Make me over, make me over
I wanna be made over, yeah, yeah, yeah, yeah
Make me over, make me over
I wanna be made over, tell the ladies

Come on, come on make me over
Baby make me over
I wanna look nice now
I wanna look real pretty
I wanna look jazzy
Make me all better
