Please don't stop your love.  
Please don't stop your love.  
Please don't stop your love (Please don't stop it, baby  
don't stop it, baby don't stop your love).  
Please don't stop it, baby don't stop it, baby don't stop  
your love.

Everytime I'm around you make me feel like a lady.  
Amazing.  
They could take pointers from you if they paid attention  
to the way you move.  
Elegantly handling gently.  
Never getting my love mistaken.  
Knowing what you want from me.  
Exactly.  
I know what I want from you.  
Baby please.

Please don't stop.  
Loving me the way you do (Loving me the way you do).  
All I want is your smile around.  
Boy you bring so much joy (Baby yeah).

No one has been more into it the way he feels.  
And that's what turns me on loving the way you do.  
(With the fact that you have) More than one string  
attached.  
(It takes a real man to understand no one should come)  
In between what means more to you.  
To me you're a perfect example of what a man should  
be.  
If only I could get a piece I'd make you so happy baby.

Please don't stop.  
Loving me the way you do (Loving me the way you do).  
All I want is your smile around (Baby).  
Boy you bring so much joy.

(So) Please don't stop.  
Loving me the way you do (I love when you love me).  
All I want is your smile around (All I need is your smile).  
Boy you bring so much joy (Baby yeah).

Please don't stop it, baby don't stop it, baby don't stop  
your love (Please don't stop your love).

Please don't stop it, baby don't stop it, baby don't stop  
your love (Please don't stop your love).  
Please don't stop it, baby don't stop it, baby don't stop  
your love (Please don't stop your love).  
Please don't stop it, baby don't stop it, baby don't stop  
your love.

Please don't stop.  
(Baby please) Loving me the way you do (Loving me  
the way you do yeah).  
All I want is your smile around.  
Boy you bring so much joy.

(So please don't) Please don't stop.  
Loving me the way you do (Loving me the way you do).  
All I want is your smile around (Baby).  
Boy you bring so much joy (Break it down).

Please don't stop.  
(Loving me) Loving me the way you do.  
(Said all I want) All I want is your smile around (Baby).  
Boy you bring so much joy (You bring me so much joy).

Please don't stop.  
Loving me the way you do (Loving me the way you do).  
All I want is your smile around (Baby).  
Boy you bring so much joy (Baby yeah).

You bring me so much joy.

Please don't stop your love.  
Please don't stop your love.  
Please don't stop your love (Please don't stop it, baby  
don't stop it, baby don't stop your love).  
Please don't stop your love (Please don't stop it, baby  
don't stop it, baby don't stop your love).  
Please don't stop your love (Please don't stop it, baby  
don't stop it, baby don't stop your love).  
Please don't stop it, baby don't stop it, baby don't stop  
your love.
