Over and over
Lalalalalalalala
(alicia keys)
Lalalalalalalala
(keyshia cole)
(the way it is)

Baby i can remember.. a time when we were both so
secure but
Now it's like december, and you say i'm so insecure
and
I gotta get away, cuz you making me weak keeping me
trapped
I gotta be a fool, thinking i can get our old thing back
ooh

You use to keep your word was one who always did
what you said
You use to speak to me so sweet with something caring
to say
Oooooooh oh, you don't even try no more
Oooooooh oh, you don't even care no more

I don't wanna love you
Don't wanna need you
Just wanna leave you (i swear)
I just want it to be over..(i just want it to be over)
I just want it to be over..(i just want it to be over)

It's like i hate to love ya.. a charade we play time after
time
It's like you love to see me,, confused and a mess
I'm losing my mind.
I gotta get away cuz you making me weak it's keeping
me trapped
I gotta be a fool thinking i could get our old thing back
oh

You use to keep your word was one who always did
what you said
You use to speak to me so sweet with something caring
to say

Oooooooh oh you don't even try no more
Oooooooh oh why you don't care no more

I don't wanna love you
Don't wanna need you
Just wanna leave you (i swear)
I just want it to be over..(i just want it to be over)
I just want it to be over..(i just want it to be over)

Lalalalalalalala (la la la la)
Lalalalalalalala(no i don't wann a hear it no more)
Lalalalalalala(all the lies nooooo)
Lalalalalalalala(you you you you use to)

You use to keep your word (heeeeyyyy) was one who
always did what you said (baby you cared)
You use to speak to me so sweet (so sweet)with
something caring to say (ooh)
Oooooooh oh, you don't even try no more
Oooooooooooooooooooooooooooooooh ooh uh oh oh, why
you don't care no more

I don't (I don't) wanna love you
Don't wanna (no) need you
Just wanna (I wanna) leave you (I swear)
I just want it to be over (I just want it to be over)
I just want it to be over (Hey)

(repeat chorus)
