Can I come over and chill?
I wanna talk to you for a minute

When we met we took our time, wanna talk to you for a
little while
It seems we have so much in common, yeah
And piece of mind is what I get when I'm with you
I can't wait until I see your face again, I guess that's
why

There ain't no telling where this love could end up
See boy you'll never know, maybe baby we could see
There ain't no telling where this love could end up
Up, up, up, up, up, up, up, up

See baby I was thinking maybe next time
We can watch a movie together, just enjoy each others
company
I want to look into your eyes, see what you're all about
What kind of things you like, take our time, don't rush
But don't want to take it slow I guess, that's why

There ain't no telling where this love could end up
See boy you'll never know, maybe baby we could see
There ain't no telling where this love could end up
Up, up, up, up, up, up, up, up, everyday

Do you know you make smile
When I hear your voice every time you come around?
I get this, I get this funny feeling
Maybe that, maybe that we could see, apparently we
feel each other
And all I, I, I, I don't want this feeling to go away
So baby, so baby say, say that

There ain't no telling where this love could end up
See boy you'll never know, maybe baby we could see
There ain't no telling where this love could end up
Up, up, up, up, up, up, up, up

There ain't no telling where this love could end up
See boy you'll never know, maybe baby we could see

There ain't no telling where this love could end up
Up, up, up, up, up, up, up, up

See you'll never know
See you'll never know baby
