I like that story throw it my way  
god said below me honesty will stay  
what is a storm on a new brighter day?

telling the clouds in the sky every day  
look to the south for the season i am saying  
keziahs coming round on a new brighter day

are we lovers in truth or disbelievers?  
are we lovers in truth?

CHORUS:  
the day has come for all my people to know whats  
wrong  
yeah yeah  
been waiting so long to leave our children with  
something stronger

if you need to know why freedom is so hard  
keep looking through another machine to get your  
power  
it means a new brighter day

I know that the preachers got far to make you start  
do you listen to the wind or the law to make your story?  
it means a new brighter day

are we lovers in truth or disbelievers?  
are we lovers in truth?
