I can be wrong, I can be wrong but something lies  
the astral skies, can't get these pictures off my mind  
smoking sunshine, can't get my feet back on the  
ground  
the astral skies, they keep me rolling ... rolling high

I can be right, I can be right but something lies  
the astral skies, can't get these pictures off my mind  
smoking sunshine, can't get my feet back on the  
ground  
the astral skies, they keep me rolling ... rolling high  
they keep me rolling high

like if I smoked a million, we have got a mountain full  
of  
speed  
we take another one for his millions, we have got a  
forest  
full of weed  
we're smoking anything we can do, we're breathing  
sound into  
the sky  
we keep them rolling high

but that's why I keep falling  
because I never thought these pictures in broken glass  
could ever come again ...And now I burn

I wanna give it to you huney
