Screaming, searching, euphoric shadow.  
Screaming, searching, euphoric dream.  
Phantoms in the heart of darkness hide behind the  
moonlight.  
Keeping their faces secret, unknown.  
Take their hands and go with them, they're here to help  
through weakness.  
They guide your way to the unknown land again.

And they believe I'll become real with this beautiful  
dream.  
(Now it's time) to start my journey to my home, cross  
my way and cry for help.  
Fly with the wind to the gates of destiny.  
Fly together.  
Beware on your way when you walk through mysteries.  
They free my mind.  
You are the key who can save this century, screaming  
the name of our land together that we serve forever  
more.

Where am I?  
This place feels unreal.  
My mind is floating around.  
But I know, I'm returning back home.  
Then dark legions will fall to the night where the  
demons will sear their lost souls.  
I'm suddenly awake again and free from all those  
voices.  
Sounds in the wind are dancing in silence.  
I know now what I have to do; I have no time for waiting.  
Now starts the time when war begins again.

And they believe I'll become real with this beautiful  
dream.  
(Now it's time) to start my journey to my home, cross  
my way and cry for help.  
Fly with the wind to the gates of destiny.  
Fly together.  
Beware on your way when you walk through mysteries.  
They free my mind.  
You are the key who can save this century, screaming

the name of our land together that we serve forever  
more.
