Breathing

Uhm, yes inhale, exhale.

Go in on every track, so they runnin for the hills.

Not saying I'm the best saying I can't be matched up.

Murder every single beat, you toe tagged up, feel me?

I'm your boyfriend's worst nightmare.

He acting like he bold & he really don't care.

Deep down he worry bout me meetin you.

Cos I'm the sugar baby & you got a sweet tooth.

Ain't my fault you bitter as an old man

& you that blue friend to help you stand at ah-tention.

I mean attention to all you industry dudes who sound like fools

cos you all in the same crew.

My middle fingers in the air cos I've never ever cared bout what you had to say.

Cos when you see me you stare.

You never take steps my direction.

You boys think its safer altercation, contraception.

Haha, okay it's 2010 now noise dot down & I'm still making all the sound.

The World Is A Cartoon drops on the 11th, download it; guarantee that you won't regret it.

I'm a beast I'm a monster, yeah I'm that new problem.

There is no formula so you can't solve me, I'm sorry.

If you're in my lane please move.

Road rage flow, I'm bout to pass you.

They think they can stop me.

Key word: THINK.

Swerve a road block yeah you're dealing with a tank.

No time for games cos it's never what it seems.

So you can get squashed or blown to smithereens, KABOOM.

I'll take your girl to the room.

Turn her into a witch & have her riding on my broomstick.

It's Mr. Trender Topic himself you're dealin with the Ace & that's how the cards are dealt.

PEACE.

That's where you clowns come in, you jokers if you
understand what I'm saying.
You gotta get where my mind at.
