Monster chain topic for discussion (trending)
She know about it that's why your girl is blushing
I am bowling everybody showing love that's...
They try to shake me off I make them so sick... look it
all... bunny... she
Is talking marriage
The only thing... if I die young is just another... it's a
damn shame
All I do is... no originally trace... we are some CEOs...
girl
Don't... like you don't know I don't smoke
But you do that's alright I am different from them
Call me unique... I run the show I run the city
Monster chain topic for discussion (trending) she know
about me
That's why your girl is blushing everybody showing love
All I do is win... they try to shake me off

I make them so sick... you are so slick
My city love me cause... my chick love me
Cause she got the Louis Vuittons I have been around
the world...
I am all about the game... I can catch you how to play
the game
I know the rules your girl look good... my own style
Working my way to the top
... all they do is flip flop... try to figure out what you are
singing
I am not calling out names cause everybody... top it for
discussion
She know about me that's why your girl is blushing
... my whips slick my chick slick my kicks slick... when
they see me they say... so slick
