I am a fallen zerÃ,  
Below the glaciers of the evil  
I am a golden superhero  
Above the sun and all the people

Space in your face im gonna drink  
the fucking ocean cause I ain't from a coast I'm just  
coastin  
Said I was an afterthought you'd bring along,  
well who' u after now, bitch? Run, mother fucka, run

And if you think im space-cakening  
I've been in shit of rude awakening  
And im floating high (but im always down)  
Skip or trip to face the space or fake in this

In the middle I stay in place, skip or trip at zerÃ,space  
And im floating high (but im always down)  
Skip or trip to face the space or fake in this

I met a fellow zerÃ,  
He took me to the silver people  
I said, "I think you are my hero"  
and we were one it all was clearer

Space in your face, it's the way to get you closer;  
while you were sittin on your ass,  
ya, I drank the fucking ocean  
ZerÃ,space the way to get your kicks,  
but too many chefs in the kitchen could spoil the mix

I am a means until the end  
I move a mountain with my hand  
And im floating high (but im always down)  
Skip or trip to face the space or fake in this

In the middle I stay in place, skip or trip at zerÃ,space  
And im floating high (but im always down)  
Skip or trip to face the space or fake in this

And im high (but im always down)

Skip or trip to face the space or fake in this
