"Eyes Of Eternal Loneliness"

Sun is shining on the crystal parts of ice

Frozen flame of angry is in my soul is in my eyes.

Stars are shining with cosmic wisdom

Hate of million worlds in my hands

Million spheres of burning coldness

In the soul of wolf, in the eyes of eternal loneliness

Million spheres of burning ice

Million spheres of burning darkness

Space of evil coldness

In my soul, in my eyes

In the eyes of eternal loneliness

In the eyes of eternal hanger
