"Summer Days"

Visit "[Summer Days](#)" on MotoLyrics.com

Started on a summer day we were both young and
scared trying to find a place to play you'd let me
pretend to be superman and you were mine to save. If
only I could reach the stars I'd put them together and
draw a heart so bright it would last all night as long as
you were mine.

Summer days go by just too fast to enjoy the moments
when you were mine and we laid in the sand holding
hands. I just couldn't believe a girl like you was so into
me when you kissed me on the cheek I just wanted to
jump and scream

La, la, la X3

Now I see that you were meant for me and these
oceans won't keep us apart cause your my baby your
my girl your my entire world and you'll be mine and
always by my side

La, la, la
