Written by Hal Hollander

I've seen you hangin round and you're lookin good

And I'd like to get to know you if I could

So far you haven't given me a second glance

So maybe it's time for me to take a chance

Well listen up babe there's somethin I gotta say

Well I can't stop thinkin bout you every day

And I never ever wanna let you outta my sight

I been waitin for a man like you for most of my life

CHORUS

So put your arms around me and baby hold me tight

Cause the band is playin and the music sounds just
right

And I want to remember this night for the rest of my life

So swing me around the dance floor all through the
night

The sparkle in your eye brightens up the room

And the way you look at me makes my heart beat boom
boom boom

And you're makin my temperature rise to a 100
degrees yeh eh

Well I hope you feel the same when you dance with me

CHORUS

INSTRUMENTAL SOLO

CHORUS

Well lets take a walk outside when the musics done

I'm sure there's other ways we can have some fun

The night is clear and the moon is bright above

Well it's the kind of night where we could fall in love

Yeh it's the kind of night where we could fall in love

And you're the kind of man that I've been dreamin of
