

Kicked In The Head "Delilah"

Visit "[Delilah](#)" on MotoLyrics.com

My head's on fire will i let this break me down again my
head's on fire wil i let this break me down again when
it's over will i let thi get the best of me when it's over
will i lwt this get the best of me / sleeps murdered
erase it just drive cause i don't want this to end the
nightmares drenched in gasoline my seconds winds
not kicking in stop stalling i'm falling delilah hit the kill
switch / get me caffeine get me caffeine step back
when it's time to surrender get me caffeine get me
caffeine do something i can't drive / tonight i feel like
this push and pull wont let me get away red stop lights
kill nightlife passed out yet i'm still running this
exhausted i've lost it delilah hit the kill switch / get me
caffeine get me caffanine step back whent it's time to
surrender get me caffeine get me caffeine do
something i can't dreive get me caffanine get me
caffeine do something i can't drive / my heads on fire
will i let this break me down again my heads on fire will
i let this break me down again when it's over will i let
this get the best of me when it's over will i let this get
the best of me / i'll get back
