I'm Sorry

I picked up the phone tonight
Something told me it would happen
And it was right
It wasn't luck, wasn't luck
Cause I knew the way you felt
And I knew that it would hurt you if I said no
Go away, go away

Why do I keep running you away
All I gotta do is keep u straight
I got u hypnotized so mesmerized
And I just told u no

Do I ever think 'cause you're all alone
And it's all my fault
That u just went home
Am I crazy or am I just that dumb

Is it me that's scared to leave u alone
Cuz u catch a breath when I look at u
And you're holdin back 'cause I don't like u too
But I'm tryin, n tryin to walk away
But the sad look on your face stays there
Sad look stays there

Has it ever crossed you're mind
When we're hangin' spending time gurl
That we're just friends
Nothing more, nothing more
It's not a chance I wanna take 'cause I believe
That we can make this in something that will last
Last forever, forever
Do I ever think 'cause you're all alone
And it's all my fault
That u just went home
Am I crazy or am I just that dumb

Is it me that's scared to leave u alone
Cuz u catch a breath when I look at u
And you're holdin' back 'cause I don't like u too

But I'm tryin', n tryin' to walk away
But the sad look on your face stays there
Sad look stays there

Why do I keep running you away
All I gotta do is keep u straight
I got u hypnotized so mesmerized
And I just told u no

Do I ever think 'cause you're all alone
And it's all my fault
That u just went home
Am I crazy or am I just that dumb

Is It me that's scared to leave u alone
'Cause u catch a breath when I look at u
And you're holdin' back 'cause I don't like u too
But I'm tryin, n tryin to walk away
But the sad look on your face stays there
Sad look stays there
