"Use Me"

Visit "[Use Me](#)" on MotoLyrics.com

I was feeling kinda nervous
As you walked straight into my life
My jaded eyes could not disguise the way i felt inside

I'll let you use me
So don't play games with me
Kiss me like you mean it here tonight

We could have a conversation
Then we could find a place to go
As the summer air blows through your hair
It makes me lose control

I'm feeling kinda lucky
Maybe we'll meet up at the show
And if by chance we found romance
I'd tell you so you know

I'll let you use me
So don't play games with me
Kiss me like you mean it here tonight

Cause she wants me
Dosen't mean that she'll keep me
I guess we'll have to wait and see
Like a big picture romance movie
Where the stars walk out on the final scene
And the most important words were left unspoken
