"When Goodbye Means Forever"

Visit "[When Goodbye Means Forever](#)" on MotoLyrics.com

We've heard of all your stories of how much you care
But we know what the truth is, you're going nowhere

Taken one step too far this time, no more excuses
Did you think we'd still be friends, and did you think
we'd understand

That you could break up all of our dreams
That you could come between a good thing
Now you're gone, we wrote a song, so sing along, its
just for you called

Goodbye means forever
When goodbye means forever

Save your breath for those that care we've left you
behind
Hope you're enjoying your world cause i'm loving mine

Taken one step too far this time, no more excuses
Did you think we'd still be friends, and did you think
we'd understand

That you could break up all of our dreams
That you could come between a good thing

Now you're gone, we wrote a song, so sing along, its
just for you called

Goodbye means forever
When goodbye means forever

Taken it one step too far this time
No more excuses i want this off my mind

Remember when we were best friends
It's over now
We shared our music we shared out dreams it's over
Over now
