Haim!

(Verse)

Love, hate, play this game of give and take
Won't stay, we all make mistakes
I'll say, what a wonderful escape
I erase
Hey, hey, hey

(Hook)

Things get crazy and I feel like I'm losing my mind
I don't know what to do
I'm going insane and I really don't know why
There's only one thing to do
I'm floating through the night on a red eye red eye
Floating through the night on a red eye red eye
I'm floating through the night on a red eye red eye
Floating through the night on a red eye red eye

I can't understand, I don't understand it
The visions in my head
I just can't make sense of it

(X2)

Cause I can never run, I can never run
I can never run, there's no use for it baby
I can never run, I can never run
I can never run, I'm so used to you baby

(Hook x4)

Things get crazy and I feel like I'm losing my mind
I don't know what to do
I'm going insane and I really don't know why
There's only one thing to do
I'm floating through the night on a red eye red eye
Floating through the night on a red eye red eye
I'm floating through the night on a red eye red eye
Floating through the night on a red eye red eye
