[Celly Cel]

At least 360 degrees and slidin' to the function
Sherley-locks in my ear, yelling 'Bump Something'
Menage-a-toi, need about three with me in this spot
Mixing up my Drizze while they stizz up on that row, but
See, I'm a ridah, when I flash it ain't nowhere to hide ya
I'm right besides ya 'bout to let these thangs all up
inside ya
There ain't no sense tryin' to knock a playa for the way
he lounge
And even the haters in your town sing it's going down

[Rappin' 4-Tay]

Up in the spot, fool got popped, killed him a cop,
jumped in a drop
That was the life he lived but now it's haunted
Imagine your dome posted on America's Most Wanted
They flowned it and locked him up for conniving
Whether the strong surviving
Or getting pimped by the system
I still be 4-1-5 ing it down to the V
With that fool Celly C-E-L-L
Shakin' it, breakin' it, movin' it with this clientele
With this underground, it's going down
Ha ha

[Celly Cel] (Kerry)

Ride with your folks (It's going down)
Sideways in a cloud of smoke (It's going down)
Bumping 'til your amps blow (It's going down)
'Cause you know it's going down fosho (Tonight it goes
down)

Ride with your folks (It's going down)
Sideways in a cloud of smoke (It's going down)
Bumping 'til your amps blow (It's going down)
'Cause you know it's going down fosho (Tonight it goes
down)

[E-40]

Get up, uh, I'd like to, uh, dig you when I dug

Biatches ask mah 'How deep is your love?'
Who up on deck, who put dem hickeys on your neck?
Ugh, how many babies did you make off that Keith
Sweat?
Don't even trip it's all labexibiali fitty
Hit the clubs and act bad, get them biatches ready
Upon release 40 you's a cold piece
You hardly war makin', drinkin', shootin' me out, it's
soft

[B-Legit]

I ride the Benzo, Bill Clinton, presidential
Out the window, never been, though
Type that get the party loud trunkin'
So they can hear me, I keep 'em leery
With twamps on the S Series
And Cruise Control, gonna take 'em where them
hoochies roll
If for some ho, them hoochies down in Celly, so
So, when you see me double-parked, flashing hazard
lights
You get it right, 'cause, man, it's going down tonight

[Celly Cel] (Kerry)

Ride with your folks (It's going down)
Sideways in a cloud of smoke (It's going down)
Bumping 'til your amps blow (It's going down)
'Cause you know it's going down fosho (Tonight it goes
down)

Ride with your folks (It's going down)
Sideways in a cloud of smoke (It's going down)
Bumping 'til your amps blow (It's going down)
'Cause you know it's going down fosho (Tonight it goes
down)

[Mack 10]

West Side! You know who he be hood banging
It's that killer Mack 10, Inglewood swingin'
They connect gangin' and ya know that's how it go
Although it ain't gonna be easy but believe me, dog
It's gonna be off the heezy fo' sheezy
And if it ain't her, I laugh it off like a joke
And I grab my AK 'cause I spray up anybody for my
folks in the Bay
On real, homeboy, I'm a killer
I leave their shirts soakin', no jokin'
So if it's going down tonight
I be on the first thing smokin', so holler at me

[Celly Cel]

It's going down so majorly my pager battery
Stay on low cells while I'm trying to get some mo' mail
Dodgin' hot ones, makin' liquor store runs
Creepin' through the city streets, pervin' and I'm on one
Can't get wrapped up in that "He said, she said"
What was said will leave ya dead,
Runnin' your mouth will get you filled with lead
So I stay real, soakin' that game outta the hills
Ridin' with that Mazda sound
Now you know it's going down

[Celly Cel] (Kerry)

Ride with your folks (It's going down)
Sideways in a cloud of smoke (It's going down)
Bumping 'til your amps blow (It's going down)
'Cause you know it's going down fosho (Tonight it goes
down)

Ride with your folks (It's going down)
Sideways in a cloud of smoke (It's going down)
Bumping 'til your amps blow (It's going down)
'Cause you know it's going down fosho (Tonight it goes
down)

Repeat 'til fade
