ERASE US!
ERASE...
US!

I can't take another complication
Have mercy please god erase us
I can't take another complication
Have mercy please god erase us

ERASE US!

Let me breathe check destroy and upset
On focusing distractions tear me open
And all the thoughts in my head are constantly
HAUNTING ME

I hope that I don't bore you while I whine about it
I hope you won't be saddened while I cry about it
I keep telling myself that there's something more
I keep telling myself that there's something more

I'm lost in this place it's such a waste
I can't watch things further complicate
So if it all fails just throw it back in my face
AND BURY ME

I can't take another complication
Have mercy please god erase us
I can't take another complication
Have mercy please god erase us
ERASE US!

Everyday I wake up to stagnant bullshit
As soon as I escape there's more stagnant bullshit
This endless propaganda
corporate agenda
I'd like to think there's more
something more

I hope that i don't bore you while I whine about it
I hope you won't be saddened while I cry about it

So if it all fails just throw it back in my face
AND BURY ME!

I'm lost in this place it's such a waste
I can't watch things further complicate
Have mercy please god erase us
Have mercy please god erase us
I can't take another complication
Have mercy please god erase us
Have mercy please god erase us
please god erase us
I can't take another complication

I can't take another complication
Have mercy please god erase us
I can't take another complication
Have mercy please god erase us
GOD ERASE...

US!

HAVE MERCY PLEASE GOD ERASE US
ERASE US

HAVE MERCY PLEASE GOD ERASE US

I can't take another complication
Have mercy please god erase us
Have mercy please god erase us
GOD ERASE!
