Im gonna move to Southern California
Got me a ride and a reason to ignore you
Got me a radio ain't got no speakers
Ain't much use so im leaving it,
Leaving it for you
Im leaving it for you
Could be back for you

Gotta find a room and im running out of money
Staying up late but i gotta get up early
Why did I move to southern california
Smiles,kisses,blue
Someone should have warned you
They should have warned you
Could be back,I could be back for you

Why did I run
Southern California
Why did I run
Southern California
Southern California
Why did I run
Southern California
Southern California
Southern California
Southern California

Why did I move to Southern California?
